

## Claims

1. Rubber material, in particular for wiper blades of windshield wipers or for motor vehicle tires, characterized in that it contains a copolymer based on isoprene and at least one further polymerizable monomer.
2. Rubber material according to Claim 1, characterized in that it contains a copolymer made of isoprene and butadiene.
3. Rubber material according to one of Claims 1 or 2, characterized in that it also contains a filler material, and that the filler material is a mixture of furnace black and thermal black.
4. Rubber material according to one of Claims 1 through 3, characterized in that the rubber material contains 20 – 150 parts by weight of a filler material in relation to 100 parts by weight of elastomer.
5. Rubber material according to one of the preceding claims, characterized in that it contains a softening agent and/or mineral oil.
6. Rubber material according to one of the preceding claims, characterized in that the rubber material also contains natural rubber and/or polybutadiene.
7. Wiper blade for windshield wipers, characterized by a rubber material according to one of Claims 1 through 6.

8. Wiper blade according to Claim 7, characterized in that a segment (2), a wedge (3) and/or a wiper lip (4) of the wiper blade contain a copolymer made of isoprene and butadiene.
9. Wiper blade according to Claim 6 or 7, characterized in that a top portion (1) and/or a segment (2) contain EPDM and/or CR.
